You get the right people
every time.

©Synerfac Technical Staffing
A division of Synerfac, Inc.

We can find whatever technical talent you require.

Get connected with the right people

Connect yourself with the expertise you need.

With Synerfac, you benefit from our comprehensive recruitment network. Your staffing specialist uses the speed and reach of the Internet to access SmartSearch™, our company-wide, recruiting system and knowledge base. SmartSearch™ enables your specialist to access candidates throughout the Synerfac network and respond quickly with people who are suitable and available for you. We can even maintain a proactive target skill watch for you—so we can present candidates the moment they are available for your project. This is a huge advantage in securing top talent. Working with Synerfac means you are connected.

Synerfac is a growing company with conveniently located offices. Our reputation has been built on success since 1987. Contact a personal staffing specialist at one of our business branches, or complete our easy staffing requirement form on our website: www.synerfac.com. Discover a world of new talent for your business.

Proven professionals for every assignment.

Your Synerfac staffing specialist can connect you with skilled professionals for all your staffing needs. You have a single point of contact, whether you need technical staff for a specific project or full-time position. Our staffing options include contract, contract-to-hire and direct-hire. Synerfac offers you a variety of choices to suit your budget and staffing needs. We are ready to work with you to identify the best program and the right people for your business.
